

Instrument Details

Cell Analysis and Imaging

- BD FACS Aria Fusion Cell Sorter
- ImageXpress PICO Automated Cell Imaging System
- ChemiDoc MP Imaging System
- Millicell Digital Cell Imager
- Inverted and Upright Microscopes

Molecular Biology and Gene Expression Analysis

- R-PCR Quant Studio 5
- Jess System
- PCR Thermal Cyclers
- Gel Running Systems

High-Throughput Screening and Detection

- EnVision Multilabel Reader
- FLIPR Tetra and Penta Fluorescent Plate Readers
- SpectraMax iD5 & M5
- Jess System
- MicroBeta Scintillation Counters

Liquid Handling and Automation

- Echo 650T Liquid Handling System
- Biomek i7 Liquid Handling System
- Fluent Automation Workstation
- Multidrop Combi Dispensers
- Plate Piercers

Biophysical Analysis

- Biacore T200 (SPR)
