

In Vitro Platform and Matrix Availability

We offer a wide range of validated biological systems to support absorption, distribution, metabolism, and safety testing.

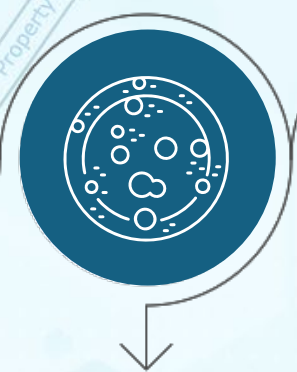

Available Systems:

Human and animal hepatocytes, microsomes, S9, cytosol

Intestinal S9, blood, plasma, tissues (brain, kidney, spleen)

Cell lines: Caco-2, MDCK, HEK-293, CHO-K1

Vesicles: MRP2, BSEP, BCRP

Buffers and biorelevant media (SGF, FaSSIF, FeSSIF, etc.)
